2. JUSTIFICATION FOR THE NEED OF SOURCING THE NECESSARY INFORMATION AND DATA

- 2.1 Delivery of the Data to the Administrator enables to comply with the obligations set out in the Benchmarks Regulation, in particular to:
 - 2.1.1 determine whether the methodology of benchmarks provided by the Administrator meets the requirements set out in the Benchmarks Regulation,
 - 2.1.2 validate the Input Data through backtesting in accordance with Art. 12(1)(c) of the Benchmarks Regulation,
 - 2.1.3 identify the Transactions and any other conditions that may involve the manipulation or attempted manipulation of Transaction-based Benchmarks within the meaning of MAR, in accordance with Art. 14(1) of the Benchmarks Regulation,
 - 2.1.4 verify the Transaction-based Benchmarks' capability of measuring the Reference Market,
 - 2.1.5 determine whether a proposed change of the key element of the Method of Determining Transaction-based Benchmarks meets the materiality criteria,
 - 2.1.6 review the Method of Determining the Transaction-based Benchmarks or research conducted by the Administrator related to measuring the activity in the money market and changing the scope of segments of the money market that the Transaction-based Benchmark intends to measure.
- 2.2 The delivery of the Data to the Administrator also allows to perform analytical procedures and other operations by the Administrator, related to the process of providing other benchmarks.
- 2.3 The Administrator shall take adequate measures to ensure that the use of the Data does not entail the disclosure to third parties the counterparties of the transaction to which the Data relate, either directly or indirectly (i.e. in particular, without revealing

the counterparties to the transaction, but by presenting information in a way that allows indirect identification).

3. TYPES OF DATA

3.1 The Data to be delivered shall include:
